Professional Summary:

To Have long term beneficial relationship with an esteemed organization where I can Learn as well as a contribute my skill as a Professional, towards the betterment of the organization. Further I am eagerly anticipating for the opportunity to work with the best minds in the industry to quench my thirst innovation and Development.

Executive Summary:

- ☒ 1 year of experience in software development.
- ☒ Good knowledge of ASP.NET MVC framework.
- ☒ Good knowledge of SQL databases, including query optimization and database management.
- ☒ Experience in Developing APIs and implementing customized functionality using APIs and stored procedures.
- ☒ Good understanding of Object-Oriented concepts for software design and implementation.
- ☒ Leadership quality to lead a team with Interpersonal and communication skills.
- ☒ Ability to adopt new technologies and approaches.
- ☒ Having Strong interpersonal and communication skills.

Education:

- ☐ July 2021 - March 2024
 - Bachelor of Computer Application (BCA)
- ☐ June 2024 - Present
 - Master of Science in Information Technology (MSCIT)

Skills:

- HTML5
- JavaScript
- Bootstrap
- Ajax
- ASP.NET
- CSS3
- React Js
- Tailwind CSS
- C#
- SQL Server

Experience:

□ April 2024 – March 2025

○ In Techno Intellect Minds as a Software Developer.

1. Title : API Development & Data Management

Responsibilities : (Techno Intellect Minds (Software Developer))

- ☒ Create RESTful APIs for CRUD operations, facilitating efficient data exchange.
- ☒ Create tables and stored procedures for storing file names and efficient data management.

Description:

- ☒ Designed APIs using ASP.NET MVC to handle CRUD operations with stored procedures in SQL Server.
- ☒ Implemented file upload functionality for storing photos and ensuring proper file handling.

Environment: SQL Server, .NET, Postman

2. Title: Bug Fixing and New Feature Development

Responsibilities: (Techno Intellect Minds (Software Developer))

- ☒ Develop and implement new features, while fixing functional and performance-Related bugs to improve the website's functionality.
- ☒ Enhance website performance by optimizing code, resolving bugs, and ensuring smooth functionality across all sections.

Description:

- ☒ Changed and refactored code in .NET MVC to resolve issues and improve application performance.
- ☒ Optimized database queries and procedures to increase efficiency and reduce load times.

Environment: SQL Server, .NETMVC

3. Title: CRUD Operations with AJAX, jQuery, and .NET MVC

Responsibilities: (Techno Intellect Minds(Software Developer))

- ☒ Integrate .NET MVC framework with AJAX and jQuery to implement CRUD operations without page reloads.
- ☒ Use single stored procedures for CRUD operation.

Description:

- ☒ Utilized AJAX and jQuery for real-time data manipulation and asynchronous updates, ensuring a smooth, page-freeze experience.
- ☒ Leveraged .NET MVC to dynamically render data, improving frontend speed, responsiveness, and overall user experience.
- ☒ Designed SQL tables with proper relationships, normalization and developed stored procedures for efficient data management and enhanced performance.

Environment: SQL Server, .NET MVC

Projects:

NewsApp

React JS | HTML | BOOTSTRAP

The primary objective of the Newsapp is to offer users a convenient platform for accessing diverse and up-to-date news content from various reliable sources. The app aims to deliver an intuitive and engaging interface, catering to the preferences and interests of a wide range of users.

Weather App

React JS | HTML | BOOTSTRAP

The Weather App is developed to offer users a straightforward and informative interface for accessing accurate weather forecasts based on their location or specified locations. Utilizing modern web technologies, the app delivers a seamless user experience and provides valuable meteorological data from trusted sources.

Movie Finder

React JS | HTML | BOOTSTRAP

The Movie Finder App serves as a comprehensive platform for users to discover information about movies, including details such as plot summaries, cast, ratings, release dates, and more. It leverages modern web technologies to deliver an intuitive and interactive interface for movie enthusiasts and casual users alike.
